

UV-Warranty STADURLON

We confirm the following characteristics of white Stadurlon plastic sheets:

Weatherproofness for a period of 5 years starting with the delivery date and according to the following test specifications. These specifications are valid for the outdoor application in Europe, north of the 47th parallel. For use in outdoor applications north of the 42nd parallel a weatherproofness is guaranteed for a period of 5 years starting with the delivery date and according to the following test specifications.

Resistance to artificial weathering is determined following DIN EN ISO 4892-2 standard:

After exposition to an irradiation energy of 0.8 MJ/cm², colour differences in contrast to the original sample do not exceed degree 4 of the grey scale according to ISO 105 A. The testing has to be performed on cleaned sheets.

In case of warranty implementation, we will replace defective goods by equivalent products free of charge. Further claims, such as replacement or repair of defective products which have not been delivered by us are excluded.

The proof of increased colour deviation is incumbent on the customer.

Furthermore, our General Conditions of Sale apply.
