

LIGHTWEIGHT FOAM BOARD
VISCOM EASYPRINT BLACK

Product Information

VISCOM EASYPRINT BLACK

Certified for
HP Latex Inks

100%
PVC-free

Description:

The Stadur VISCOM EASYPRINT BLACK lightweight foam board, which is **100% PVC-free**, consists of a **black** extruded polystyrene core and of Stadurlon compact sheets in **black** on both sides. In addition the facings **can also be combined** in black/white or white on both sides. The technical characteristics correspond to those of the white version.

Facings:

Stadurlon is a high performance, PVC-free plastic material. The EASYPRINT surface technology guarantees optimum printing results without restrictions with digital printing. After milling (V-shaped groove) easily foldable by hand. After milling (slot groove) various geometrical shapes can be generated.

Properties:

- Low weight
- Rigid
- Suitable for indoor applications
- Dual sided and flush-mounted protective film
- Excellent scratch resistance
- Usable for cutting and milling
- PVC-free

Thicknesses: 5 mm / 10 mm / 19 mm

Sizes: 1530 x 3050 mm / 2030 x 3050 mm

Special Elements:

Other formats and fixed formats are available on request.

Advantages at a Glance:

Thickness	5 mm	10 mm	19 mm
Weight kg/m ²	1.70	1.83	2.12

Advantages at a Glance:

Low weight, rigid, very easy to handle, indoor application, humidity resistant, dual sided and flush-mounted protective film, excellent scratch resistance, due to special surface technology guaranteeing for optimal and excellent printing results with direct digital printing, available until 2030 mm width, CNC milling, various geometrical shapes can be generated with slot-grooving, surface ready for painting

Areas of Application:

Digital printing, screen printing, photo mounting, PoS/PoP, signs for interior applications, display, exhibition design, shop fitting, shop design, event marketing, promotion campaigns, furniture design, column paneling
