

# Lightweight foam board VISCOM WHITEBOARD

## Description

The Stadur lightweight foam board VISCOM WHITEBOARD consists of PVC foam sheets on both sides with a ferrous whiteboard foil on one face. Thanks to the smooth & durable magnetic writing surface this product is perfectly suited as a lasting presentation panel and bulletin board.

## Properties

Low weight, compatible with whiteboard pens / markers, drywipe without leaving a trace, safe adherence of magnets and magnetic foil, rigid, easily processable, flush-mounted protective film on the back side
